

**FOR IMMEDIATE RELEASE**

**VIATRONIX INC. ELECTS JOHN BARTER AND  
SIDNEY BRAGINSKY TO ITS BOARD OF DIRECTORS**

**STONY BROOK, NY, JUNE 25, 2001-** Viatronix Inc., a developer of breakthrough computer technology in the field of 3D medical imaging, announced today that it has named John W. Barter and Sidney Braginsky to its Board of Directors. Simultaneously resigning from the Board were Dr. Jerome Liang, Gregory Norton and Dr. Mark Wax, founders of Viatronix.

According to General Thomas P. Stafford, Viatronix Chairman of the Board, "We are delighted with the addition of Messrs. Barter and Braginsky to the Viatronix board. These extremely experienced executives will provide the necessary leadership to further develop Viatronix's reach as a global provider of 3D technological healthcare solutions. I would also personally like to express my gratitude to Drs. Liang and Wax, and Mr. Norton for their significant contributions to the Viatronix Board, and we look forward to their continuing contributions within senior management roles for the Company."

Mr. John Barter has had a distinguished executive career previously serving more than 20 years with AlliedSignal, Inc. a multibillion-dollar international global manufacturer. While with Allied Signal, Mr. Barter was the Chief Executive Officer for the automotive sector, a \$6 billion, 35,000-employee division. For six years prior to that appointment, Mr. Barter was the company's Chief Financial Officer. Mr. Barter recently was a director, and the interim Chief Financial Officer of Kestrel Solutions, an optical network system company. At Kestrel, Mr. Barter led the company's financial team and raised over \$100 million of capital.

Mr. Sidney Braginsky was until recently President of Olympus America Incorporated, a US subsidiary of Olympus Optical Co., Ltd., a multi-national corporation headquartered in Tokyo, Japan. Olympus is a leader in manufacturing and distribution of endoscopes, microscopes, automatic blood and fluid chemistry analyzer, and other research and industrial and consumer products. Previously Mr. Braginsky was the Executive VP and COO for Olympus's Scientific Products Group, serving a total of 27 years

with the company. Mr. Braginsky currently serves on many boards and councils including being a member of the Board of Directors of Noven Pharmaceuticals, Inc, and a Trustee of Long Island University.

**About Viatronix, Inc.**

Viatronix is a leading innovator and developer of diagnostic 3D imaging software, which enables physicians to interactively view patients' vital organs and anatomical structures. The v3D System has patent protected technology, which enables 3D visualization of organs from patient data acquired by standard imaging equipment in a minimally or non-invasive method. The company's first product, v3D-Colon, allows physicians to interactively view the colon reconstructed from a CT scan, providing visualization of the inner surface of the colon including polyps. Viatronix, through application of the v3D technology is developing additional innovative products that will be useful in earlier detection of other diseases, treatment planning, and follow up evaluation.
